

Md Zaid Haque

Jamshedpur, Jharkhand | +91 7808691228 | Portfolio | mdzaidhaque4@gmail.com | LinkedIn | GitHub

Professional Summary

Undergraduate at NIT Durgapur with hands-on experience in **Python, SQL, Excel, data analysis, and database-driven applications**. Interested in transforming raw data into actionable insights through exploratory analysis, statistical methods, KPI reporting, customer segmentation, and visualization. Built end-to-end analytics projects involving **PostgreSQL, Power BI, DAX, dbt, and machine learning**.

Education

National Institute of Technology Durgapur <i>Bachelor of Technology in Biotechnology</i>	2023 – 2027
Dr. Zameer Ahsan High School, Jahanabad <i>Class XII</i>	2022

Experience

E-Cell, Centre for Cognitive Activities, NIT Durgapur <i>Senior Member</i>	April 2023 – Present
--	-----------------------------

- Spearheaded planning and execution of entrepreneurial events and workshops while coordinating multiple activities, deadlines, and team responsibilities.
- Mentored junior members and collaborated with startups, alumni, and industry experts to organize speaker sessions, pitch competitions, and ideation camps.
- Supported planning and promotion of E-Cell initiatives by coordinating information and requirements across teams.

RECstacy, NIT Durgapur

Junior Coordinator

- Assisted in planning and executing cultural events while coordinating with vendors, sponsors, and multiple stakeholders.
- Communicated requirements, tracked resources, and helped resolve operational issues under time-sensitive deadlines.

Projects

Customer360 – AI-Powered Customer Intelligence & Retention Platform	GitHub Live Demo
--	--------------------

- Built an end-to-end customer analytics platform using **Python, SQL, PostgreSQL, dbt, DuckDB, Power BI, and DAX** across **1,500 customer records** and multiple business entities.
- Analyzed customer behavior through **churn, retention, revenue-at-risk, RFM segmentation, cohort retention, and customer lifetime value (CLV)** metrics to identify business trends and high-risk customers.
- Designed analytical data models and **Power BI star-schema datasets with DAX measures** for KPI reporting, customer-level analysis, and interactive business dashboards.
- Applied statistical hypothesis testing including **Chi-Square, Mann-Whitney U, Welch’s t-test, and Fisher’s Exact test** to investigate relationships within customer and churn data.
- Developed an **XGBoost churn prediction pipeline with TreeSHAP explainability**, enabling customer-level risk analysis and identification of key churn drivers.

WanderLust – Travel & Accommodation Marketplace	GitHub Live Demo
--	--------------------

- Developed a full-stack web application using **Node.js, Express.js, MongoDB Atlas, EJS, and JavaScript** for travel accommodation listings.
- Implemented authentication, authorization, session management, server-side validation, RESTful routing, and MongoDB data modelling.
- Integrated Cloudinary and Mapbox APIs for image management and location-aware property listings, with review and rating functionality.

Technical Skills

Programming: Python, SQL, JavaScript, C

Data Analysis: Pandas, NumPy, Exploratory Data Analysis, Statistical Analysis, Data Cleaning, Data Visualization

BI & Analytics: Power BI, DAX, Excel, KPI Reporting, Customer Segmentation, Cohort Analysis, RFM Analysis

Databases: PostgreSQL, MySQL, MongoDB, DuckDB

Data Engineering: dbt, Data Modeling, Star Schema, ETL/ELT, Data Quality Validation

Machine Learning: Scikit-learn, XGBoost, TreeSHAP, Churn Prediction

Tools: Git, GitHub, Jupyter Notebook, REST APIs

Extracurricular Activities

Cricket Team, NIT Durgapur <i>Vice Captain</i>	2024
--	-------------

- Selected to represent NIT Durgapur at the Inter-NIT Cricket Tournament in 2024 and served as Vice Captain.
- Awarded Man of the Match for a strong performance in the semifinal while balancing academic responsibilities with regular team practices.
